

Servicing & Upgrades

Servicing SUB'ROCA Refuge Chambers:

We provide dependable servicing, repairs, and annual maintenance for our refuge chambers throughout Africa.

Our experienced technicians travel across the continent, offering expert support at competitive, market-appropriate rates.

We use only premium-quality spare parts to ensure long-term performance and full operational readiness.

Servicing & Upgrades

Servicing Other Refuge Chamber Brands:

We offer expert servicing for all makes of refuge chambers, supported by customized service kits and spare parts. Our experienced technicians are trained to maintain a wide range of systems, ensuring full compliance and delivering dependable, efficient support across multiple chamber brands. Simply let us know your make and model.

Our daily service rates are much lower than what you're currently paying.

Servicing & Upgrades

Refuge Chamber Upgrades:

We provide cost-effective upgrade solutions for a wide range of refuge chamber makes, allowing a seamless transition to SUB'ROCA systems. Our upgrades include:

- Replacing standard batteries with refuge-specific batteries
- Installing 3-stage air filtration kits
- Converting to SUB'ROCA CO₂ and CO chemical systems, offering a more affordable alternative

Our adaptor plate is designed to fit most existing scrubber systems, making upgrades quick and simple. The CO₂ and CO cartridges are easy to handle, just place them on the upgraded tray and replace as needed.

Servicing & Upgrades

Critical Spares:

We supply a full range of critical spares to support and upgrade existing refuge chamber systems. Our cost-effective solutions enable a smooth transition to SUB'ROCA equipment, helping improve performance and reduce operating costs.

Available upgrades include:

- SUB'ROCA refuge-specific batteries for enhanced reliability
- Three-stage air filtration kits to improve air quality and safety
- Reliable, high-performance inverters, fully pre-programmed for refuge chamber applications
- SUB'ROCA chemical cartridges, a more affordable alternative, delivering significant savings without compromising effectiveness

Training & Support

- Included in final sales cost.
- Operational and maintenance training.
- Cost-Effective Maintenance – Requires only annual servicing, unlike alternatives that need three or two services per year.
- Re-certification required yearly.
- SUB'ROCA service program.
- Full technical support.
- 12-month warranty on all parts.
